Big Data Value plays a central role in the implementation of the European Digital Single Market strategy contributing to its different pillars.

European Big Data Value Public Private Partnership (BDV cPPP)

The European contractual Public Private Partnership on Big Data Value (BDV cPPP) was signed on 13 October 2014 marking the commitment of the European Commission, industry and partners from academia to build a data-driven economy across Europe. The cPPP programme has been operationalised with the launch of the LEIT work programme 2016/2017 with the first cPPP projects starting on January 2017. Find further information at www.big-data-value.eu

BDVA is the private counterpart to the European Commission to implement the Big Data Value PPP program.

Big Data Value Reference model
Big Data Value Strategic Research and Innovation Agenda (BDV SRIA)

Since 2014 BDVA publishes a Big Data Value Strategic Research and Innovation Agenda (SRIA), defining the overall goals, main technical and non-technical priorities, and a research and innovation roadmap for the European Public Private Partnership (PPP) on Big Data Value.

BDV PPP implementation mechanisms:
- Innovation Spaces (i-Spaces)
- Lighthouse projects
- Technical projects
- Cooperation and coordination projects

Find the BDV SRIA v4.0 at www.bdva.eu

BDVA i-Spaces

- Train & educate employees to make use of Big Data technologies and build on data expertise
- Provide master level students with industrial problems and specific data
- Support SME uptake in digitization
- Offer services for cultural heritage and local governments
- Provide digital solutions for policy development
- Create new data-driven business models
- Identify new business opportunities with already existing data
- Proof of impact and ROI
- Build precompetitive application
- Develop (visual) analytics tool set for specific domains
- Support SME uptake in digitization
- Offer services for cultural heritage and local governments
- Provide digital solutions for policy development
- Create new data-driven business models
- Identify new business opportunities with already existing data
- Proof of impact and ROI
- Build precompetitive application
- Develop (visual) analytics tool set for specific domains

Become a BDVA labelled i-Space:
The i-Space label is well recognized as a quality label on European level. It benchmarks the different initiatives through the different categories. Labelled i-Spaces form a Europe-wide ecosystem to foster cross-border data innovation.

Find more information about BDVA labelled i-spaces here: http://www.bdva.eu/?q=I-Spaces
Big Data Value Association (BDVA) is an industry-driven international non-for-profit organisation with over 180 members all over Europe and a well-balanced composition of large, small, and medium-sized industries as well as research and user organizations.

The mission of the BDVA is to develop the Innovation Ecosystem that will enable the data-driven digital transformation in Europe delivering maximum economic and societal benefit, and, achieving and sustaining Europe’s leadership on Big Data Value creation and Artificial Intelligence.

**BDVA Strategic priorities**

- **Develop Ecosystem**
  
  Developing and Strengthening the European Big Data Value Ecosystem

- **Data Innovation Recommendations**

  Providing guidelines and recommendations on data innovation to the industry, market and policy markers

- **Guiding Standards**

  Driving Big Data standardisation and interoperability priorities/Influencing Standardisation

- **Know-How and Skills**

  Improve the adoption of Big data through the exchange of knowledge, skills and best practices

**Become a member of BDVA**

BDVA is open to new members to further enrich the data value ecosystem and play an active role. These include Data Users, Data Providers, Data Technology Providers and Researchers. Members benefit by representing a strong industry voice and enabling impact in Data Value Topics in Europe, and, by accessing a European Data-Driven Innovation ecosystem of peers, key players, and know-how.
